[Schiff: Trump Could Refuse to Accept Results, Allow Peaceful Transition](#)

During Friday's Democratic Weekly Address, House Intelligence Committee Chairman Adam Schiff (D-CA) stated that President Trump's statements and actions on voting mean that he "may end up doing more damage than any foreign government could by refusing to accept the results of the election or allowing a peaceful transition of power."

CELEBRITY DR. FAUCI

[Topps selling trading card of Dr. Anthony Fauci's first pitch for 24 hours](#)

Topps is launching a limited edition trading card of the first pitch offered by Dr. Anthony Fauci, director of the National Institute of Allergy and Infectious Diseases, prior to Thursday's MLB season opener between the Washington Nationals and the New York Yankees. Orders can be made on the company's website, but the card will be for sale only 24 hours.

SANDMANN SETTLEMENT

Nicholas Sandmann

@N1ckSandmann

We have settled with WAPO and CNN.

The fight isn't over. 2 down. 6 to go.

Don't hold your breath [@jack](#).

It Looks Like the Czech Republic Might Get a Second Amendment

Following the Velvet Revolution, the newly formed Czech Republic passed a law legalizing the purchase of a firearm for citizens without criminal records. Although the former Czechoslovakia had a rich [history](#) of firearm production, under fascism and Communism personal ownership was largely forbidden.

Once the Czechs joined the European Union in 2004, the nation was bound to the EU's stringent rules governing gun ownership. After the Charlie Hebdo terror attack in 2015, the first inclination of the EU was to make it even more difficult for citizens to defend themselves. The resulting European Firearms Directive [placed](#) new constraints — including an effective ban on most semi-automatic rifles — on member states, which were all expected to comply by 2019.

The only country to challenge the edict was the Czech Republic. And last year, it lost a case before the European Court of Justice. But ever since the European Firearms Directive passed, conservatives have been attempting to add the right to bear arms as one of the “fundamental human rights and freedoms.” It now looks like it may happen.

A few years ago, the amendment passed through the lower house of the Czech parliament but was stopped in the upper house. The proposed [language](#) read as so: “The right to defend one's own life or the life of another person with a weapon is guaranteed under the conditions laid down by law.”

[F1 star Lewis Hamilton is slammed by fans for sharing an anti-vaxxer post accusing billionaire Bill Gates of lying about coronavirus trials with his 18m Instagram followers](#)

Lewis Hamilton has been heavily criticised after sharing an anti-vaxxer video with his 18.3million Instagram followers.

The six-time Formula One champion, 35, shared the video by content creator King Bach on his Instagram story twice.

In the video, which has since disappeared from Hamilton's story, tech billionaire Bill Gates is being interviewed about the progress towards getting a vaccine to combat Covid-19.

Gates, the Microsoft founder, now directs much of his time and energy to his global health foundation and backs South Korean company SK Bioscience.

In the video he is heard playing down concerns over potential side-effects of a coronavirus vaccine and rubbishes the baseless suggestions that he wants to embed tracking chips into a vaccine.

[President Donald J. Trump Is Taking Action to Lower Drug Costs and Ensure That Americans Have Access to Life-saving Medications](#)

- The first Order directs federally qualified health centers to pass along massive discounts on insulin and epinephrine received from drug companies to certain low-income Americans.
- The second Order will allow State plans for safe importation of certain drugs, authorize the re-importation of insulin products made in the United States, and create a pathway for widespread use of personal importation waivers at authorized pharmacies in the United States.
- The third Order will prohibit secret deals between drug manufacturers and pharmacy benefit manager middlemen, ensuring patients directly benefit from available discounts at the pharmacy counter.

- The fourth and final Order ensures that the United States pays the lowest price available in economically comparable countries for Medicare Part B drugs.

The United States often pays 80% more for these drugs than other developed countries.

It's time to reduce the price Americans pay for these costly Part B medications, and absent successful negotiations with drug company executives this Order will be implemented on August 24.

[U.S. agrees to pay Pfizer and BioNTech \\$2 billion for 100 million doses of coronavirus vaccine](#)

The U.S. will pay Pfizer and biotech firm BioNTech \$1.95 billion to produce and deliver 100 million doses of their Covid-19 vaccine if it proves safe and effective, the companies announced Wednesday.

It was the largest such deal between the government and companies racing to develop a coronavirus vaccine.

Under the agreement, the U.S. can acquire 500 million additional doses, the Department of Health and Human Services said. Germany-based BioNTech and Pfizer are jointly developing four potential vaccines.

If one of the vaccines proves safe and effective in a large phase three trial and receives regulatory approval, HHS said Pfizer will begin to deliver doses to locations across the U.S. at the government's direction. The vaccine would then be made available to Americans "at no cost," HHS said. It's unclear who the first doses of the potential vaccine would go to and how that decision would be made.

The companies previously said they expect to begin a large trial with up to 30,000 participants later this month, if they receive regulatory approval.

Shares of Pfizer were 3.8% higher in early trading Wednesday and BioNTech stock was up 4%.

REPARATIONS

- ADOS Only. How many people exactly? Roughly?
- Logistics? Who exactly gets it? What about future generations?
- Republicans will never even consider it while Democrats would want to apply it to every "person of color".

DOWNSIDE OF WORKING FROM HOME

"Solitude is dangerous. It's very addictive. It becomes a habit...It's like you don't want to deal with people any more because they drain your energy." - Jim Carrey

EPSTEIN DIDN'T KILL HIMSELF

While Donald Trump was once a personal friend of Jeffrey Epstein, he banned the billionaire pedophile from visiting Mar-a-Lago shortly after Epstein's 2008 conviction.

Epstein victim Virginia Roberts Giuffre confirmed in unsealed court documents last year that she didn't witness Trump involved with any of the girls and women groomed by Epstein.

"It's true that he didn't partake in any sex with us, but it's not true that he flirted with me. Donald Trump never flirted with me," said Giuffre.

As we highlighted earlier this week, on the eve of her court appearance, some leftists hailed alleged Epstein co-conspirator Ghislaine Maxwell as a feminist icon who could help bring down Trump.

PROJECT BLUE BEAM

[Project Blue Beam](#) is a conspiracy theory that claims that NASA is attempting to implement a New Age religion with the Antichrist at its head and start a New World Order, via a technologically-simulated Second Coming.

The allegations were presented in 1994 by Quebecois journalist and conspiracy theorist Serge Monast, and later published in his book *Project Blue Beam (NASA)*. Proponents of the theory allege that Monast and another unnamed journalist, who both died of heart attacks in 1996, were in fact assassinated, and that the Canadian government kidnapped Monast's daughter in an effort to dissuade him from investigating Project Blue Beam.
